**Houston Chinese Youth Camp** is a week-long summer camp for students ages 8-18. In 2017, camp will be held on July 23rd-July 29th at The University of Texas at Austin.

**Heritage.** CYC offers a range of classes that focus on Chinese culture.

Over the past three decades we have taught students Chinese Yo-Yo, Calligraphy, Arts & Crafts, Dragon Dance, Folk Dance, Chinese Choir, and more. Whether campers have come to camp to learn more about their own heritage or to broaden their worldview, they will have the opportunity to participate in a wide variety of activities.

**Leadership.** Everything we do at CYC is designed to highlight the importance of leadership. Campers are divided into groups based on age, and each group is led by a team of high school-aged Assistant Counselors and Counselors, many of whom have grown up at camp. Younger campers are shown a model of effective leadership by their counselor groups and advisory staff, and are then given the opportunity to become leaders themselves in future years.

**Friendship.** Although pool parties and talent shows are what makes our camp fun, the true reason campers come back year after year is the bonds of friendship they make. CYC works hard to foster self-confidence and to create an inclusive, welcoming environment for all. For many campers, CYC is the highlight of their summer, and many of our alumni continue those bonds throughout college and beyond.

*"I love CYC because It made me who I am today. Thanks to CYC, I found my calling of becoming a teacher!"*

**Houston Chinese Youth Camp** is a 501(c)(3) non-profit organization run by a dedicated group of former campers, counselors and advisors who volunteer their time, simply because they love camp. The camper fee is only \$520 for a full week of activities, food and dorm accommodations. The cost of running camp is much higher - therefore, funding depends on the generosity and support of community organizations, businesses, and individuals like you. With your help we are able to keep costs low for campers while providing a high quality of programming year after year.
